

Florida SHOTS takes the pain out of immunization records.

Join the physicians who have joined Florida SHOTS — a free, statewide, centralized, online immunization registry that is a program of the Florida Department of Health. Enrolled health care providers enjoy:

- Immediate access to a child's immunization status
- Increased opportunities to immunize
- Computer-generated 680 forms
- Immunization tracking software that never has to be downloaded or upgraded on your computer
- Immunization forecasts and reminders/recalls
- Toll-free help line and free staff training

Check to see whether your office has enrolled. Call 877-888-SHOT for a quick application or to request a visit and a demonstration of the registry from a Florida SHOTS regional coordinator.

Florida SHOTS Enrollment. FAST. EASY. FREE.
Visit www.flshots.com or call 877-888-SHOT.

Florida SHOTS is endorsed by Florida Pediatric Society, Florida Medical Association, Florida Osteopathic Medical Association, and Florida Association of Health Plans.

Florida **Shots**
keeping shots in check

Concerned about entering vaccination data twice? We have the solution.

Florida SHOTS can now upload your vaccination data directly from electronic records such as your billing data, EMR or practice management software. Florida SHOTS Data Exchange saves your office time by eliminating manual data entry in the registry. Join health care providers statewide who are participating.

What's involved?

- Identify your practice management, EMR or billing software provider.
- Ask that software provider to work with Florida SHOTS staff to upload data.
- Go to the Florida SHOTS web site at www.flshots.com and print out the **“Private Provider Data Upload Program Description and File Specifications.”** This provides the information your software company needs to get the data upload process started.
- Ask your software company to review the document and contact Diane McLeod at 877-888-SHOT.

Which software companies are currently participating?

- Automated Medical Systems
- AutoMedicWorks
- Bond Technologies
- Electronic Healthcare Systems
- JMJ Technologies
- MediTab
- NCG Medical (*Perfect Care*)
